## Marquis Jet

With the nature of commercial air travel today, flying privately can have a great impact on your life. You can save hours by avoiding the long security lines, baggage claim ordeals, delays, and many connections associated with commercial travel today. With a private jet you can arrive at your destination rested and feeling your best. The Marquis Jet Card, backed by the NetJets fleet, has made world-class private aviation easier than ever. With one simple payment and no long-term commitment, you can enjoy the freedom and control to make the most of your time.

For the past five-plus years, the Marquis Jet Card program has been the jet card of choice for many of those who desire the highest standards, including Matt Damon, Wayne Gretzky, Kristin Davis, and Jim Furyk. They are just a few of the thousands of Marquis Jet Card owners.

NetJets pioneered fractional jet ownership in 1986 and is a recognized worldwide leader in private aviation. With an average aircraft age of 5 years and 3,000 highly-trained pilots boasting thousands upon thousands of flight hours, Netjets is safe and reliable. It has the largest private jet fleet and is supported by state-of-the-art flight

centers in the U.S. and Europe.

Many people think that flying privately is complicated, which isn't true. The Marquis Jet Card makes world-class private aviation easily accessible. You have guaranteed availability 24 hours a day, 365 days a year, and can schedule your trip with as little as 10 hours notice. Twenty-five-hour cards are available on a wide selection of 10 different aircraft types, ranging from the seven-seat Citation V Ultra to the 14-seat Gulfstream 450.

A dedicated Marquis Jet Owner Services Team is available around the clock to assist every

**“...it allows card owners traveling for personal use the flexibility to escape...”**

Marquis Jet Card owner with their flight and travel planning. Similar to how a pre-paid cell phone works, every time a Marquis Jet Card owner flies the flight time is deducted from the Card balance. When the balance reaches zero, they have the option to renew or walk away, with no strings attached.

“We have seen that Marquis Jet Card owners

fly privately throughout the year for personal and business travel,” said Ken Austin, executive vice president of Marquis Jet. “The beauty of the Marquis Jet Card program is that it allows card owners traveling for personal use the flexibility to escape for either a quick recharge or an extended family holiday. With the Marquis Jet Card and access to NetJets, our Card Owners are purchasing quality, consistency, value and precious extra time.”

When you board, in-flight catering awaits, coordinated in advance in accordance with your preferences. Moreover, Marquis Jet Card owners enjoy a myriad of value-added benefits from Marquis Jet's alliance partners. The unique Mayo Clinic Executive Travel Response program gives card owners access to medical support onboard, at their destination, and anywhere in the world 24x7. Every Marquis Jet Card owner receives a \$1,500 Ermenegildo Zegna certificate toward a made-to-measure suit, \$3,000 Judith Ripka jewelry gift card, and an invitation to enjoy AVIS' highest level of benefits.

However, the biggest benefit couldn't be more clear—your happiness.
